

# CONTRAST

L I G H T I N G

*Kathy*

Contrast introduces the Kathy suspension. A fun and colorful suspension enabling you to give some vibe to your decor. Made of the highest hand blown glass quality, this suspension is offered in a combination of vibrant colors.

Running on 120V line voltage use any stylish E26 Medium Base lamp in the fixture to create a unique look. Group them in clusters and let them shine.

Contrast Lighting is renowned for the quality of its hand blown glass fixtures. Blown by our Artisans in our own facility, each and every piece is uniquely hand crafted. The outstanding thickness and purity of the glass colors make them stand out among any other products. Colors are rich, textures refined, there is nothing like Contrast's glass shades.

### Two canopy styles

PD1 and PDR1 offered in painted finishes white or black and plated finish brushed nickel. Three fabric cable colors: red, silver or black will be the perfect complement to your Kathy.

### Glass shade shapes, colors and textures

Kathy comes in three different sizes: 8" 10" and 12" with clear or bubbly aspect.

While the 12" is offered only in natural glass, the 8" and 10" Kathy come in smoked blue, smoked grey and natural glass.

**Create your own and unique Kathy combination!**

Our R&D team designed an adjustable lampholder available for 10" and 12" Kathys enabling you to position the lamp in an artistic way. Tilt the lamp or place it downward the way you want. Crafted in high quality aluminum and plated brushed nickel, not only is the lamp holder functional but it is an integral part of the design. The 8" fixture comes with a standard downward lampholder due to the fixture dimension.
